

Accredited facility for COVID-19 Testing by the Lagos State Government

WHO WE ARE

ZaineLab is a state-of-the-art PCR Laboratory Service established by the Reddington Healthcare Group in response to the current pandemic. It is a Molecular Biology Laboratory for detecting and diagnosing COVID 19. The laboratory is equipped Class 3 Biosecurity Technology that promotes efficiency and provides the highest level protection for personnel and the environment. This is the highest level of biosafety technology available in the world.

OUR GOAL
We aim to deliver test results within within 24 - 48 Hours

The ZaineLab is part of Reddington's COVID response to compliment the Lagos State government's effort in containing further transmission of COVID 19 by supporting them with modern diagnostic Testing facilities and prompt delivery of Test reports.
